VANGUARD SAFETY | CATALOG 2025

COME GROW WITH US!

OUR MISSION

Vanguard Safety is a leading PPE manufacturer that uses our extensive expertise to engineer quality products at an outstanding value. We provide trusted, customized solutions that help our customers meet their needs and grow their business.

OUR VISION

Become the market leader for trusted product solutions. Build long-lasting value for our customers and employees with a culture based on humility, integrity and expertise.

OUR VALUE

Trusted, customized product solutions that make customer supply chains stronger and more profitable. We embrace an ease of business with a commitment to the overall customer experience.

WHAT DOES CUSTOMIZED SOLUTIONS MEAN TO YOU?

PRODUCT SOLUTIONS

- High-Quality, Innovative Products
- Our Products exceed FDA Requirements and are Produced in ISO Certified Facilities
- On Demand Product Training and Education
- Head-to-Toe Product Selection to meet all PPE Needs

SUPPLY CHAIN SOLUTIONS

- International Reach
- Risk Mitigation
- Safety Stock in 3 Domestic Warehouses

COMMERCIAL DEPLOYMENT

- End User Assessments
- Continuous Improvement Program with Shared Savings
- Direct Vertical Market Specialists
- Cost of Capital Expertise
- Personalized Business Reviews

WHAT OUR CUSTOMERS GET

- End user growth, compliance and retention
- Ability to support large, multi-site national end users
- Less risk, less variability and better service
- Improved total economics
- Competitive advantage

WHO WE ARE

Vanguard Safety is one of the fastest growing PPE manufacturers in the United States, with hundreds of distributors nationwide. Our team has been serving customers like you for over 30 years and has a trusted reputation as leaders in our space. We provide customers with excellent service, fast response times and personalized solutions to help grow their business.

Here at Vanguard Safety, we are passionate about operational excellence and everything we do is thoughtfully executed with our customers in mind. We pride ourselves on using high quality materials in our products to provide customers with hand and body protection they can depend on.

WHY VANGUARD SAFETY?

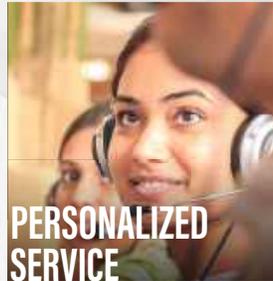

QUALITY PRODUCTS

Proven high-quality products that our team has been crafting for over 30 years.

FAST SHIPPING

Fast shipping exceeds industry standards.

PERSONALIZED SERVICE

Always speak to a person and not to an automated service.

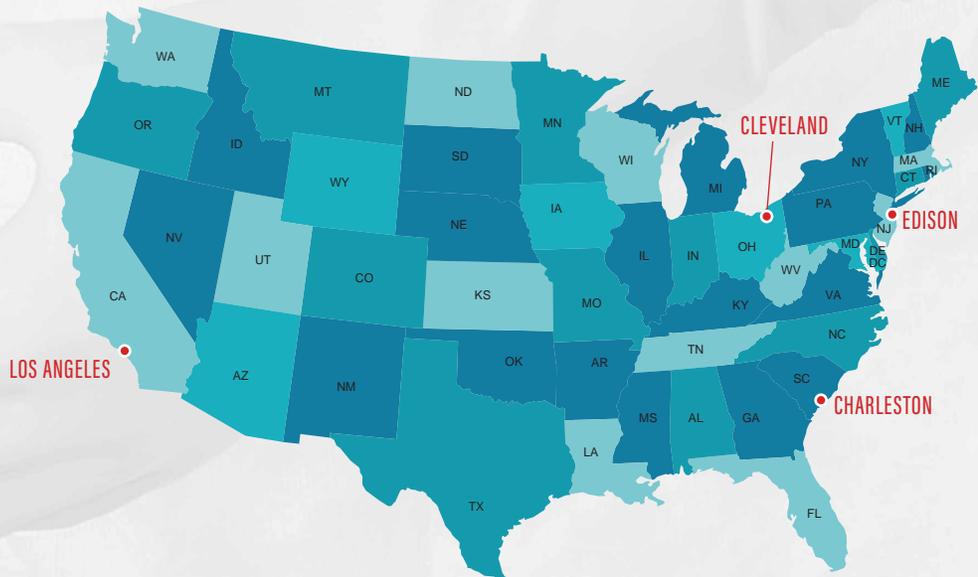

KNOW HOW

Position you to beat the competition.

OUR REACH

We have warehouses in Cleveland, OH, Edison, NJ, Los Angeles, CA and Charleston, SC.

VANGUARD SAFETY

QUALITY. CONSISTENCY. SAFETY.

MARKETS WE SERVE

CUSTOMIZED SOLUTIONS FOR A FIRST CLASS CUSTOMER EXPERIENCE

In a few short years, we have expanded to provide a vast array of PPE including apparel, reusable gloves and safety accessories to multiple industries and distribution channels.

FOOD SERVICE & FOOD PROCESSING

With an anticipated year-over-year growth of 7.5% CAGR, Food Service is growing at a higher rate than the 5.1% CAGR of the entire PPE industry. We have an extensive offering and the ability to innovate product solutions that safeguard not just employees but also the food they produce.

HEALTHCARE

Estimated at 50% of the North American PPE market, Healthcare is the largest segment. We manufacture a full range of medical products including hand protection, body apparel, masks, premium wipes, and consumables. Our high quality products are backed by industry standards and the third party specifications required in both Acute Care, Long Term Care, and specialty channel users.

JAN-SAN

Extensive offering to protect workers exposed to harsh chemicals, various risks and hazards. Our expertise balances worker safety, productivity, and comfort.

INDUSTRIAL

Workers now require employers to supply PPE that's consistent, better performing, more comfortable and more stylish. We understand the balance between workplace safety trends and rising PPE costs. Our expanding PPE portfolio, global supply chain, and commitment to innovate offers our partners the ability to manage risk while trusting in our commitment of continuous improvement.

Our portfolio and expertise are positioned to help distributors across channels.

VANGUARD SAFETY GLOVES ARE TESTED TO BOTH ANSI & EN388 STANDARDS.

ANSI-105 Standard for Cut Resistance

This standard follows the ASTM F2992-15 test method which measures cut resistance on a 9-level scale from A1 to A9. Using a TDM 100 Machine, a sliding blade is dragged across the glove material. The higher the weight required to cut the material, the higher the cut rating.

ANSI A1 200-499 GRAMS	ANSI A2 500-999 GRAMS	ANSI A3 1,000-1,499 GRAMS	ANSI A4 1,500-2,199 GRAMS	ANSI A5 2,200-2,999 GRAMS
ANSI A6 3,000-3,999 GRAMS	ANSI A7 4,000-4,999 GRAMS	ANSI A8 5,000-5,999 GRAMS	ANSI A9 6,000+ GRAMS	

LINER MATERIAL BASICS

High Performance Polyethylene (HPPE)

- Lightweight. Unmatched comfort, flexibility, and abrasion resistance.
- Ultra strong. HPPE is 15 times stronger than steel on an equal weight basis.
- UV resistant. Can be bleached.
- Dyneema[®] is the name brand version of HPPE.

Aramid

- A synthetic, thicker fiber which provides a high level of cut resistance.
- Durable. Aramid is 5 times stronger than steel on an equal weight basis.
- Naturally heat and flame resistant. Ideal for applications requiring both cut and heat resistance.
- Not UV resistant. Cannot be bleached.
- Kevlar[®] is the name brand version of Aramid.

Stainless Steel & Fiberglass

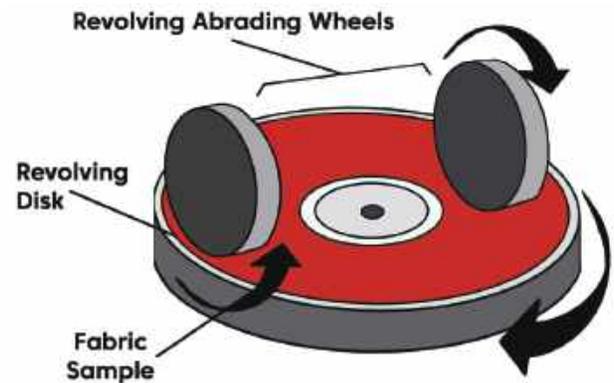

- Cut resistant fibers that enhance the glove's cut protection.
- Typically, there is a more comfortable material wrapped around either the stainless steel or fiberglass to increase overall comfort.

Nylon

- Ultra lightweight, durable, and abrasion resistant fiber.
- Superior comfort, flexibility, and breathability. Cooling on the hand.
- Excellent dexterity and sensitivity. Dries quickly.

ANSI-105 Standard for Abrasion Resistance

This standard follows the ASTM test methods D3389-10 for coated gloves and D3884-09 for uncoated gloves. The test is conducted by rotating a piece of the glove's palm under two abrasive, weighted wheels. As the wheels scrape against the material, the test measures the total number of abrasion cycles until the liner and coating (if present) is worn through.

Abrasion Level (500g Load Test)	Abr Cycles to Fail	Abrasion Level (1000g Load Test)	Abr Cycles to Fail
ANSI 0 ABR	< 100	ANSI 4 ABR	≥ 3,000
ANSI 1 ABR	≥ 100	ANSI 5 ABR	≥ 10,000
ANSI 2 ABR	≥ 500	ANSI 6 ABR	≥ 20,000
ANSI 3 ABR	≥ 1,000		

Tested in accordance with ASTM D3389 & ASTM 3884-09

21 GAUGE

A7 CUT RESISTANCE

VANGUARD® QUALITY

“I have been in the industry a long time. These gloves are different than any other cut glove I’ve seen. They are so breathable, I can feel the cool air on my hands. They come off and go on easily.”

– Nick L., Customer Tester

REUSABLE GLOVES / CUT RESISTANT

NEW R41B7 Series / HPPE 21 Gauge A7 Polyurethane Coated

Item	Size	Liner Gauge	Liner Material	Coating Material	Quantity
R41B77	Small	21	HPPE	Polyurethane	1 pr/bag 12 pr/bag 144 pr/cs
R41B78	Medium				
R41B79	Large				
R41B710	XL				
R41B711	XXL				

- This glove should be on your radar.
- High cut, lightweight design made with our innovative Stealth Cut™ Technology.
- Engineered comfort fit.
- Ultra breathable for hot conditions.
- Highly dexterous, barehand-like feel.
- Reinforced nitrile thumbcrotch.
- Touchscreen compatible.

R11A3 Series / HPPE A3 Polyurethane Coated

Item	Size	Liner Gauge	Liner Material	Coating Material	Quantity
R11A36	XS	13	HPPE	Polyurethane	1 pr/bag 12 pr/bag 144 pr/cs
R11A37	Small				
R11A38	Medium				
R11A39	Large				
R11A310	XL				

- Breathable, superior comfort and nonslip grip.
- Flexible 13g seamless knit HPPE blended liner keeps hands cool.
- **FFDCA compliant** and machine washable.
- Recommended for manufacturing, construction, metal and glass fabrication and machining.
- Polyurethane palm coating resists abrasion and provides good wet and dry grip.

R18G4 Series / HPPE A4 Uncoated

Item	Size	Liner Gauge	Liner Material	Coating Material	Quantity
R18G47	Small	13	HPPE	Uncoated	1 ea/bag 12 ea/inner bx 48 ea/cs
R18G48	Medium				
R18G49	Large				
R18G410	XL				

- Comfortable protection when chopping meats, fruits and vegetables.
- Uncoated for ultimate dexterity in food processing, food service, and manufacturing.
- Breathable seamless knit 13g HPPE blended liner keeps hands cool and dry.
- Extended cuff protects wrists and forearms.
- **FFDCA compliant** and machine washable.

REUSABLE GLOVES / GENERAL PURPOSE

G11C1 Series / Flat Nitrile Coated

Item	Size	Liner Gauge	Liner Material	Coating Material	Quantity
G11C17	Small	13	HPPE	Flat Nitrile	12 pr/bg 144 pr/cs
G11C18	Medium				
G11C19	Large				
G11C110	XL				

- Dexterous, form fitting gloves ideal for package handling, warehousing, general assembly, machining and maintenance.
- Seamless knit 13g nylon liner keeps hands cool and dry.
- Ultra tacky coating for maximum gripping power.
- Black flat nitrile palm coating for puncture and abrasion resistance.
- Dark color hides dirt and grime.
- **FFDCA compliant** and machine washable.

G12A2 Series / Foam Nitrile Coated

Item	Size	Liner Gauge	Liner Material	Coating Material	Quantity
G12A27	Small	13	Nylon	Foam Nitrile	12 pr/bg 144 pr/cs
G12A28	Medium				
G12A29	Large				
G12A210	XL				
G12A211	XXL				

- Foam nitrile palm coating resists abrasion and channels away liquids for a nonslip grip in wet and oily environments.
- Dexterous, form fitting gloves ideal for manufacturing, warehousing, cleaning, machining and maintenance.
- Breathable, seamless knit 13g nylon liner keeps hands cool and dry.
- **FFDCA compliant** and machine washable.

REUSABLE GLOVES / CHEMICAL & LIQUID RESISTANT

NEOPRENE COATED LATEX FLOCK LINED GLOVES

C37B6

Series	Mil Thickness	Color	Cuff Length & Type	Grip	Quantity	Medium	Large	XL
C37B6	28	Blue/Yellow	12" Straight	Honeycomb	12 pr/bg 12 dz/cs	C37B68	C37B69	C37B610

- Two in one. Multi-layer construction offers the chemical resistance of neoprene and the comfort of latex.
- Extra thick protection for manufacturing, painting and heavy duty cleaning.
- Replace when yellow color shows through blue.
- Flock-lined for increased comfort and easy donning.
- Straight cuff. Non-slip honeycomb grip.
- Complies with FFDCFA food handling requirements 21 CFR, Parts 170-199.

NEW

HI-VIS ORANGE NITRILE UNLINED GLOVES

C1BA7

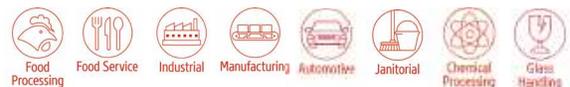

Series	Mil Thickness	Lining	Cuff Length & Type	Grip	Quantity	Small	Medium	Large	XL	XXL
C1BA7	9	Unlined	12" Straight	Diamond	12 pr/bg 12 dz/cs	C1BA77	C1BA78	C1BA79	C1BA710	C1BA711

- Protect your hands from grease, fats and chemicals.
- NatureGuard™ Sustainable Technology has been tested per ASTM D5511 testing method.
- Hi-Vis Orange color enhances hand awareness.
- Puncture and abrasion resistant nitrile.
- Complies with FFDCFA food handling requirements 21 CFR, Parts 170-199.
- Non-slip, raised diamond texturing for dry, wet, and oily environments.
- Unlined for ultimate dexterity. Reduces potential product contamination.

ARMORGUARD COVERALLS

VGuard® ArmorGuard is a general-purpose, protective material used in non-hazardous applications to protect workers against dirt, grease, grime, particles, and light liquid splashes while maintaining excellent breathability.

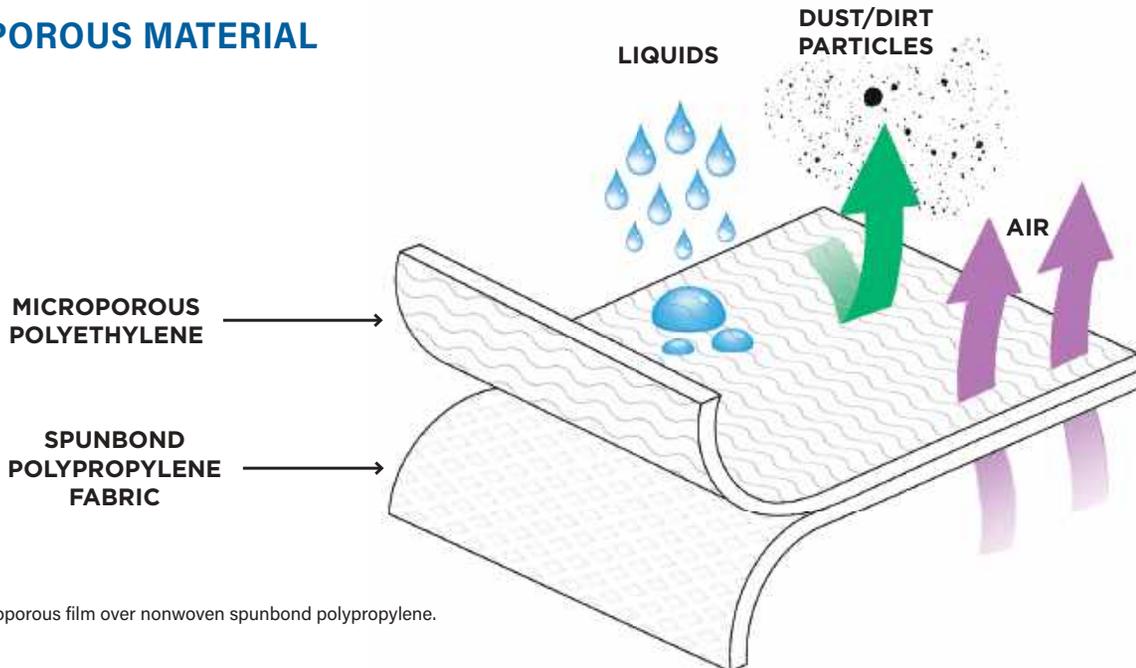

ArmorGuard microporous offers superior protection without sacrificing comfort. All coveralls have serged seams and a zipper front closure. They are individually packaged with one coverall per polybag to avoid contamination. Our coveralls meet ASTM F1670 & ASTM F1671.

SIZE CHART

Meets ANSI/ISEA 101-2016 for limited use disposable coveralls. Coveralls meet standard minimum sizing to ensure a proper fit. Properly sized protective apparel ensures workers can do their job in comfort without having to adjust or modify the garment. Limits your risk of exposure to hazardous materials and conditions."

MICROPOROUS MATERIAL

60gsm microporous film over nonwoven spunbond polypropylene.

QUALITY. CONSISTENCY. SAFETY. VANGUARD SAFETY VGUARD®

ARMORGUARD COVERALLS

- Armor workers against non-hazardous grease, grime and light liquid splashes.
- 60gsm breathable microporous offers superior barrier protection.
- Serged seams with zipper front closure, latex free.
- Complies with FFDA food handling requirements 21 CFR Parts 170-199.
- Meets ASTM F1670 & ASTM F1671.

FR COVERALLS

Item	Description	Material	Size	Color	Quantity
BC4DA22	Elastic Wrists & Ankles	55gsm FR Treated Spunbond, Meltblown, Spunbond (SMS)	Medium	Blue	25/cs
BC4DA23			Large		
BC4DA24			XL		
BC4DA25			2XL		
BC4DA26			3XL		
BC4DA27			4XL		

- Ignite worker safety. Flame Retardant coverall protects against sparks, splashes and spills.
- 55gsm breathable SMS material self-extinguishes when exposed to flames and arc flashes.
- Secondary FR protection prolongs the life of primary FR garments.
- Serged seams with zipper front closure.
- Elastic wrists and ankles keep out dirt and debris.
- Meets ASTM D6413 and NFPA 701.

FR TREATED SMS MATERIAL

LAB COATS

SPUNBOND POLYPROPYLENE (SBPP) IS A STRONG, DURABLE AND LIGHTWEIGHT MATERIAL THAT PROVIDES PROTECTION AGAINST NON-HAZARDOUS DRY PARTICULATES, DIRT AND GRIME. THESE LAB COATS COME IN TWO DIFFERENT MATERIAL WEIGHTS - A LIGHT WEIGHT 28GSM AND MEDIUM WEIGHT 40GSM.

LIGHT WEIGHT

Item	Description	Material	Size	Color	Quantity

B1DS16			3XL		

- Protection from non-hazardous particles, dirt and grime.
- Breathable and comfortable spunbond polypropylene.
- **Snap-Button Front.** Fold down collar and elastic wrists for added protection.
- Not made with natural rubber latex.
- **Light Weight** - 28gsm. Economical and disposable.
- **Medium Weight** - Heavier, 40gsm material provides a protective barrier.
- **BLUE** - Hides dirt and grime.

SPECIALTY PRODUCTS

MADE TO ORDER

FIRST AID & EYEWASH

ESSENTIAL SUPPLIES FOR TREATING ACCIDENTS AND WORKPLACE INJURIES

FAVG1A1

MADE IN USA

FAVG3A2

Item	Description	ANSI Class	People Served	OSHA Compliant	Quantity
FAVG1A1	First Aid Kit	A	10	Yes	12 ea/cs
FAVG2A2		A	25		6 ea/cs
FAVG3A2		B	50		

Item	Description	ANSI Class	Size	OSHA Compliant	Quantity
FAVBBA1	Bloodborne Pathogen Kit	—	One Time Use	Yes	12 ea/cs

Item	Description	Bottle Size	Total Bottles	OSHA Compliant	Quantity
EYVG11	Double Eyewash Station	32 oz.	2	Yes	6 ea/cs

- Portable or wall mountable plastic case.
- Meets **ANSI Z308.1-2021 STANDARDS** when the required minimum fill is maintained.
- **BLOODBORNE PATHOGEN KIT** – Emergency cleanup for blood and bodily fluids.
- **DOUBLE 32oz. EYEWASH STATION** – Provide immediate, emergency flushing after an eye injury when a larger eyewash station is not close by. Hi-Vis green station mounts conveniently to the wall in hazardous areas.

LENS CLEANING WIPES

LWVG1A

Item	Description	Material	Sheet Size	Quantity
LWVG1A	Lens Cleaning Wipes	Bleached Softwood Kraft Pulp Paper	5x8"	100/bx 10 bx/cs

- Quickly remove dirt, debris, and oily fingerprints for streak and residue-free results.
- For use on plastic, polycarbonate, glass and prescription lenses.
- Also recommended for goggles and face shields.
- Pre-moistened wipes are safe and effective on all lens coatings.
- Nonabrasive, anti-fog, anti-static and silicone-free formula.

LIGHT ABSORBENCY UNDERPADS

U11B11

Item	Description	Material	Size	Backsheet Color	Quantity
U11B11	Disposable Underpad	Fluff/ Polymer Core	23x36"	Blue	15 bg/10 cs

- Absorbs liquids and protects linens, mattresses and furniture from accidents and incontinence.
- Soft fluff material for comfort.
- Polymer core locks in fluids and neutralizes odors.
- Non-slip, waterproof backing holds underpad in position. Heat-sealed, non-woven edges feel gentle on skin.

QUALITY. CONSISTENCY. SAFETY. VANGUARD SAFETY. VANGUARD SAFETY.

PREMIUM WIPES

PRE-MOISTENED, ALCOHOL-FREE AND HYPOALLERGENIC WIPES IDEAL FOR INCONTINENCE AND QUICK CLEANUPS.

Premium Adult Wipes

E34531

E34631

E25723

- **PREMIUM ADULT WIPES** – Soft, non-woven cloth-like fabric. Available in 8 x 12” and 9 x 13” sizes in multiple packaging configurations.
- **FLUSHABLE WIPES** – Strong enough for everyday cleaning with the convenience to safely flush. Biodegradable, sewer and septic safe.
- **BATHING CLOTHS** – 8 individual cloths for a full body clean in just one pack. Rinse-free, microwaveable formula.

*Chemotherapy drugs required by ASTM D6978-05 (2019).

Tested for use with chemotherapy drugs per ASTM D6978-05 (2019), "Standard Practice for Assessment of Resistance of Medical Gloves to Permeation by Chemotherapy Drugs." Gloves used for protection against Chemotherapy Drug exposure must be selected based on the specific type(s) of chemicals used. Users are recommended to review drug labeling or safety data sheets (SDS) for the chemotherapy drugs being used to determine an adequate level of exposure.

Grading Key ● Excellent ● Good ● Fair ● Poor ● Not Recommended

WARNING: VANGUARD SAFETY GLOVES haven't been individually tested against the chemicals in this chart. We assume no responsibility for the suitability of a user's selection for a specific application. Failure by the user to select the correct glove material could result in injury, sickness, or death. This chart is provided only as a general guide for the suitability of various unsupported glove materials against commonly used chemicals. The data provided is based on published information, including OSHA 3151-12R-2001, and is believed to be accurate; however, we cannot guarantee its accuracy. Chemical resistance is affected by many factors including temperature, concentration, glove thickness, glove durability, and chemical exposure time. It is solely the responsibility of the user to determine the risk associated with a particular application and to make the appropriate choice for protection against such risk. Gloves referenced as "fair", "poor", or "not recommended" should never be used. It is always best to perform a trial by exposing gloves referenced as "good" or "excellent" to the chemical before using. Check for chemical penetration, discoloration, cracking, or swelling. Discontinue use and consider another glove material should any degradation of the glove material occur.
